

System Saver® II Formula Pellets

Morton® System Saver® II Pellet

Morton® System Saver® II Pellets are created from high purity salt combined with resin cleaning additives. System Saver® II is complete with a patented formula that helps keep your softener clean, problem free and running longer. System Saver® II Pellets helps to:

- Clean your softener with each regeneration
- Maintain your water softener efficiency
- Extend the life of your softener

(Based on laboratory testing of hard water containing 22 grain hardness and 2 ppm iron when comparing System Saver II Pellets and regular salt pellets)
