

## Morton Salt

Morton® System Saver® II Pellets are America's #1 brand. System Saver® II contains a patented formula that is proven to deliver superior results.

- Cleans your softener while it works to remove hard water minerals.
- Helps prevent mineral buildup in pipes and appliances
- Helps improve the efficiency and extend the life of appliances and water heaters

System Saver® II Pellets are recommended by softener manufacturers, including Kenmore®, WaterBoss®, Morton® System Saver®, Northstar® and Ecopure™. It is also backed by the Good Housekeeping Seal.

System Saver® II comes in a 40 lb. bag that is easier to carry, open and pour thanks to our special bag features. The easy-open tear opens wide to allow salt to pour out easily and flow freely. The bag is also complete with a rigid plastic handle for more comfortable carrying and lifting.

*\*Based on external laboratory testing of continuous use of System Saver II versus plain salt over the life of the softener, using hard water with an average clear-water(ferrous) iron content of 1.1 parts per million (ppm).*

Soft water greatly reduces the scaling of pipes, faucets, and bath fixtures, and reduces spotting of glasses, dishes and flatware. Soft water also helps detergent clean your clothes better, while making your clothes last longer too! Overall, household chores are easier with the help of soft water and Morton Water Softening Salt.

To keep soft water flowing through you home, it's important to remember to maintain your water softener with the right amount of salt. Salt is the magic ingredient to your skin feeling great, clothes and towels feeling soft, and your dishes staying spotless.

**Morton's Tips to Maintaining Your Softener:**

1. Calendar Method – You can use bank holidays, odd number months, or every 31st as a date to fill your softener with at least two bags.

2. Air Filter Method – Each time you replace your air filters (Recommended every 60-90 days) make sure to add two bags of Morton salt.

3. Oil Change Method – When you stop by your local mechanics for your routine oil change, stop by the store and get two bags of Morton Salt to fill your softener.

If you feel or see the effects of hard water, it's not too late. Make sure to add two to three bags of Morton System Saver II or Rust Remover to clean the resin tank. You have great soft water again in no time.

**Available Sizes:**

- 25 lb. bag
- 40 lb. bag
- 50 lb. bag
- 60 lb. bag
